

Collapsible Container

Loadhog's ergonomic collapsible container is a strong, lightweight and versatile tote able to reduce down to 1/5 of its height within its own footprint.

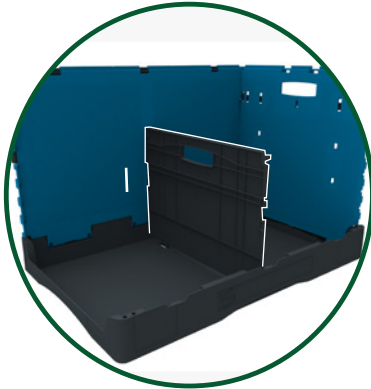

5:1 Stacking ratio

Increased vehicle fill and storage.

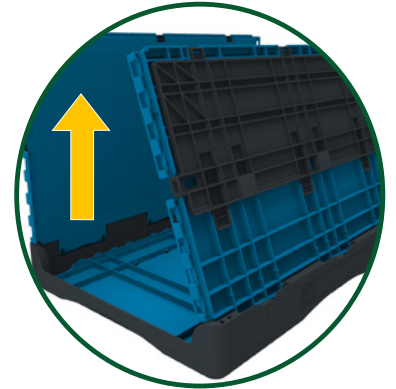

Optional divider

Improves picking and replenishment efficiency.

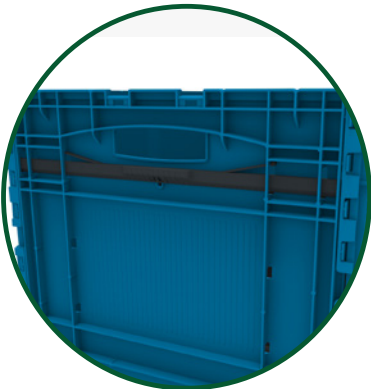

Vertical bump fit walls

Walls remain vertical without handling.

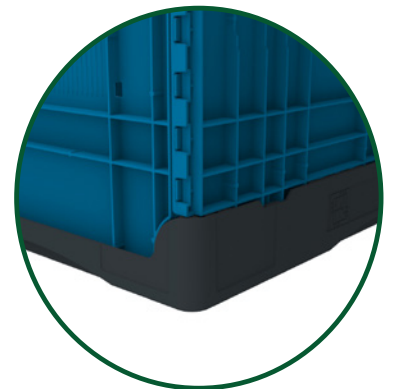

Ergonomic handle

Ensuring ease and speed of operation.

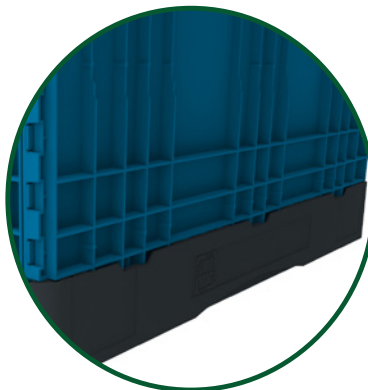

Reinforced corners and base

Increases capacity, impact resistance and durability.

Identification features

Various labelling locations and optional embossed labelling.

Collapsible Container

Specification sheet

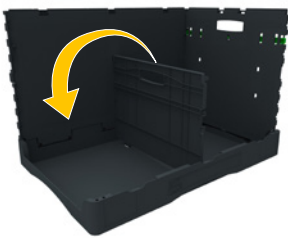

All dimensions are nominal and subject to manufacturing tolerances.

Dimensions (mm)		Volume	
External length	600	Usable height	385 mm
External width	400	Capacity	80 litres
External height	400		
Internal length	567	Material	
Internal width	367	Material	High impact polypropylene
Internal height	385	Temp resistance	-20°C to +40°C
Collapsed height	77.5		
Collapsed stacking pitch	70		

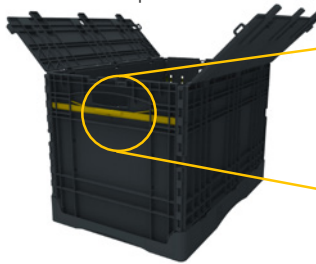

Pallet Quantities		Weight and performance (kg)	
Pallet type	UK	Weight (Divider and lid)	4.1
Quantity per pallet	125	Weight (Lid)	3.9
Height	1.75m	Weight (Divider)	3.4
<p>More packaging information can be found within the 'Official standard packaging document', any deviations from this should be advised when the order is placed with production.</p>		Weight (No options)	3.2
		Payload	20
		Static stacking load	240
		Dynamic stacking load	120

Collapsing the container Constructed collapsed again in 9 seconds

Collapse integrated divider

Ensure lids are open

Pull lever up

Collapse short end walls

Collapse long side walls
