

Pally

The Pally is a half-euro sized plastic pallet which becomes a wheeled dolly at the single press of a foot pedal. It is an efficient solution for moving products without other manual handling equipment required able to withstand a loading capacity of up to 500kg.

Working with Auto Guided Vehicles

The Pally can be used in conjunction with auto guided vehicles to future proof your business.

Stable yet manoeuvrable

The lockable pallet feet are easy to use and are more stable than castor breaks allowing the user to manoeuvre and then store 500kg of goods with ease.

Increase Vehicle Fill up to 42%

When used in conjunction with the Loadhog Pallet Lid, this system provides a better footprint than a roll cage.

Used as a Merchandising Unit

The Pally can be used as a merchandising unit for promotional or fast selling items in retail environments.

Move multiple Pallys

The Pally tow hitch accessory allows the user to connect as many Pallys together as your health and safety department deems safe to create a pally train increasing the load moved in one go.

No Pump Trucks or Forklifts Required

The Pally removes the need for pump trucks and forklifts to manoeuvre goods from A to B whether it be in the warehouse, in the factory or in store.

Specification Sheet

All dimensions are nominal and subject to manufacturing tolerances.

Dimensions & Volume (mm)		Material	
Length	800	Pally Deck	High Impact Polypropylene
Width	600	Bearers	Glass Filled Polypropylene
Height	196	Cover plate	Glass Filled Polypropylene
Stacking Height	+196	Temp Resistance	-20°C to +40°C
Ground Clearance (250 kg)	36		
Ground Clearance (500 kg)	28		

Pallet Quantities		Weight & Performance (kg)	
Pallet Type	Euro Pallet	Payload	250 or 500 variants
Quantity per pallet	20	Maximum Stacking Load	2000
Height	1.75m	Weight (250 Payload Pally)	12
		Weight (500 Payload Pally)	15

More packaging information can be found within the 'Official Standard Packaging Document', any deviations from this should be advised when the order is placed with production.

The Pally Range

Flat Pally Deck

Pally With Up stands

Pally With Lip

Accessories

Pally Handle

For ergonomic movements of Pally units

Weight (kg): 1.52
Dimensions (cm): 100 x 32 x 15

Tow Hitch

For the movement of multiple Pallys

Weight (kg): 1.12
Dimensions (cm): 31 x 31.5 x 10.5
