Loadhog’s ergonomic collapsible container is a strong, lightweight and versatile tote able to reduce down to 1/5 of it’s height within it’s own footprint.

**Key Benefits**

5:1 Stacking Ratio
The Collapsible Container boasts a 5:1 stacking ratio increasing vehicle fill when returning empties and saving storage space in the warehouse.

Vertical bump fit walls
Walls remain vertical without handling making it easier for user to collapse and construct the tote.

Reinforced corners and base
Increases capacity, impact resistance and durability.

Fully integrated Lids
Fully integrated lids are available for protection of goods within.

Ergonomic handle
Ensuring ease and speed of operation.

Pally and Lid compatible
All of our containers work in conjunction with the Loadhog Pally & Lid system to provide the ultimate RTP solution, completely eliminating one-trip packaging.

Identification features
Various labelling locations and optional embossed labelling.

Optional Divider
Vertical bump fit walls remain vertical without handling ensuring easy handling of the container.

Collapsible Container Security Seals
Security seals available for various levels of security requirements.

**Product configuration**
We offer special product configurations to ensure the solution provided is the best possible solution for you.

**Specification sheet**
All dimensions are nominal and subject to manufacturing tolerances.

**Material**
- **Material**: High impact polypropylene
- **Temp resistance**: -20ºc to +40ºc

**Pallet quantities**
- **Pallet type**: UK
- **Quantity per pallet**: 130
- **Height**: 1.75m

More packaging information can be found within the ‘Official Standard Packaging Document’, any deviations from this should be advised when the order is placed.

**Weight and performance (kg)**
- **Weight**: 4.1
- **Weight (Lid)**: 3.9
- **Weight (Divider)**: 3.4
- **Weight (no options)**: 3.2
- **Payload**: 20
- **Static stacking load**: 240
- **Dynamic stacking load**: 120
